

Want to be an Agripreneur?

YOUR WAIT IS OVER!

Agribusiness Incubation Centre (ABI) of ICAR-National Rice Research Institute (NRI), Cuttack was established in the year 2016 with an objective of developing entrepreneurs among farmers, ex-serviceman, educated but unemployed rural and urban youth. The centre has trained more than 100 aspirants who were interested in agriculture and allied fields. The centre provides knowledge platform for the candidates as per their choice of interest in their relevant field. Faculties are the eminent scientists and professors who have excelled in their subjects. These trainings are oriented to inculcate managerial and entrepreneur skills to the aspiring candidates. They are of three types and will be organized as per the dates mentioned below with corresponding nominal prices. ABI Centre has unique opportunities for creating entrepreneurial abilities and building strong partnership with entrepreneurs, start-up companies, small, medium and elite industries for technology based viable business ventures.
